Feature: Login Feature

Background:		
@login_wrong_credentials		features/login.feature:15
Scenario Outline: Login with wrong credentials -- @1.1		
Given I am on the login page	(3.259s)	steps/steps_login.py:3
When I enter "email@yahoo.com" in email field	(0.085s)	steps/steps_login.py:7
And I enter "password10" in password field	(0.067s)	steps/steps_login.py:11
And I press autentifica-ma button	(0.941s)	steps/steps_login.py:15
Then I should see an error message	(0.101s)	steps/steps_login.py:31
@login_wrong_credentials		features/login.feature:18
Scenario Outline: Login with wrong credentials -- @1.2		
Given I am on the login page	(0.500s)	steps/steps_login.py:3
When I enter "wrong-email@gmail.com" in email field	(0.269s)	steps/steps_login.py:7
And I enter "parola123" in password field	(0.042s)	steps/steps_login.py:11
And I press autentifica-ma button	(1.124s)	steps/steps_login.py:15
Then I should see an error message	(0.020s)	steps/steps_login.py:31
@login_wrong_credentials		features/login.feature:17
Scenario Outline: Login with wrong credentials -- @1.3		
Given I am on the login page	(0.854s)	steps/steps_login.py:3
When I enter "robert@email.ro" in email field	(0.315s)	steps/steps_login.py:7
And I enter "wrongpass" in password field	(0.046s)	steps/steps_login.py:11
And I press autentifica-ma button	(1.768s)	steps/steps_login.py:15
Then I should see an error message	(0.016s)	steps/steps_login.py:31
@login_wrong_email_format		features/login.feature:22
Scenario: Enter wrong email format		
Given I am on the login page	(0.379s)	steps/steps_login.py:3
When I enter "email.com" in email field	(0.427s)	steps/steps_login.py:7
And I press autentifica-ma button	(0.298s)	steps/steps_login.py:15
Then I should see an error for valid email request	(0.023s)	steps/steps_login.py:19
And I should see an error for password field	(0.014s)	steps/steps_login.py:25
@login_only_password		features/login.feature:20
Scenario: Enter only password		
Given I am on the login page	(0.417s)	steps/steps_login.py:3
When I enter "password2*" in password field	(0.405s)	steps/steps_login.py:11
And I press autentifica-ma button	(0.289s)	steps/steps_login.py:15
Then I should see an error under email field	(0.039s)	steps/steps_login.py:37
@login_empty_fields		features/login.feature:35
Scenario: Enter autentifica-ma button with email and password fields empty		
Given I am on the login page	(0.389s)	steps/steps_login.py:3
When I press autentifica-ma button	(0.417s)	steps/steps_login.py:15
Then I should see an error under email field	(0.084s)	steps/steps_login.py:37
And I should see an error for password field	(0.101s)	steps/steps_login.py:25

@login_only_email		features/login.feature:41
Scenario: Enter only email		
Given I am on the login page	(0.462s)	steps/steps_login.py:3
When I enter "robert@yahoo.com" in email field	(0.590s)	steps/steps_login.py:7
And I press autentifica-ma button	(0.126s)	steps/steps_login.py:15
Then I should see an error for password field	(0.023s)	steps/steps_login.py:25
@login_short_password		features/login.feature:47
Scenario: Enter short password		
Given I am on the login page	(0.478s)	steps/steps_login.py:3
When I enter "123" in password field	(0.557s)	steps/steps_login.py:11
And I press autentifica-ma button	(0.179s)	steps/steps_login.py:15
Then I should see an error for short password	(0.024s)	steps/steps_login.py:43

Feature: Register Feature

Background:		
@register_with_empty_fields		features/register.feature:7
Scenario: Press ma inregistrez button with all the fields empty		
Given I am on the register page	(0.837s)	steps/steps_register.py:5
When I press on ma inregistrez button	(2.451s)	steps/steps_register.py:38
Then I should see a mandatory fill field error for all the fields	(0.018s)	steps/steps_register.py:81
@register_with_same_email		features/register.feature:12
Scenario: Register with same email		
Given I am on the register page	(0.856s)	steps/steps_register.py:5
When I enter "Mario" in lastname field for registration	(0.262s)	steps/steps_register.py:9
And I enter "Alexandru" in firstname field for registration	(0.228s)	steps/steps_register.py:13
And I enter "mario@yahoo.com" in email field for registration	(0.039s)	steps/steps_register.py:17
And I enter "1234*mario" in password field for registration	(0.100s)	steps/steps_register.py:25
And I enter "1234*mario" in confirmation password field for registration	(0.046s)	steps/steps_register.py:29
And I click on terms and conditions box	(2.055s)	steps/steps_register.py:33
And I press on ma inregistrez button	(3.225s)	steps/steps_register.py:38
Then I should see an error message for using an email that has already been registered	(2.021s)	steps/steps_register.py:43
@register_with_wrong_email_format		features/register.feature:23
Scenario: Enter wrong email format		
Given I am on the register page	(0.871s)	steps/steps_register.py:5
When I enter "robert.yahoo.com" in email field for registration	(0.211s)	steps/steps_register.py:17
And I press on ma inregistrez button	(2.273s)	steps/steps_register.py:38
Then I should see an error for email	(0.020s)	steps/steps_register.py:57
@register_with_short_password		features/register.feature:29
Scenario: Enter less than 8 characters on password field		
Given I am on the register page	(0.466s)	steps/steps_register.py:5
When I enter "abc12" in password field for registration	(0.665s)	steps/steps_register.py:25
Then I should see an error message for short password	(0.020s)	steps/steps_register.py:83
@register_with_wrong_password_characters		features/register.feature:34
Scenario: Enter wrong characters on password field		
Given I am on the register page	(0.457s)	steps/steps_register.py:5
When I enter "12345678" in password field for registration	(0.696s)	steps/steps_register.py:25
Then I should see an error for wrong characters on password field	(0.023s)	steps/steps_register.py:89

@register_with_different_password_and_confirmation_password	features/register.feature:39
Scenario: Enter different passwords in password and confirmation password fields	
Given I am on the register page (0.792s)	steps/steps_register.py:5
When I enter "furtuna12345*" in password field for registration (0.424s)	steps/steps_register.py:25
And I enter "abc" in confirmation password field for registration (0.037s)	steps/steps_register.py:29
And I press on ma inregistrez button (2.132s)	steps/steps_register.py:38
Then I should see an error for same password on confirm password field (0.026s)	steps/steps_register.py:75
@register_with_correct_credentials	features/register.feature:46
Scenario: Register with correct credentials	
Given I am on the register page (1.026s)	steps/steps_register.py:5
When I enter "Andrei" in lastname field for registration (0.223s)	steps/steps_register.py:9
And I enter "George" in firstname field for registration (0.248s)	steps/steps_register.py:13
And I enter a new email address in email field for registration (0.112s)	steps/steps_register.py:21
And I enter "parola1234*" in password field for registration (0.113s)	steps/steps_register.py:25
And I enter "parola1234*" in confirmation password field for registration (0.033s)	steps/steps_register.py:29
And I click on terms and conditions box (2.090s)	steps/steps_register.py:33
And I press on ma inregistrez button (5.718s)	steps/steps_register.py:38
Then I should see a successful registration text message (2.105s)	steps/steps_register.py:50
